ETI Heavy-Duty Dial Thermometer with 300mm Length Probe

These heavy duty, 50 mm bi-metal dial probe thermometers are easy to use and accurate. The dial thermometers have a pointed stainless steel stem that measures $6.35 \times 300 \text{mm}$. Ideal for use with asphalt, blacktop, soil, and other heavy-duty materials.

Each thermometer has a clear acrylic face and a calibration adjustment nut located at the back of the dial.

There are three temperature scales available:

800-060, -20 to 60 °C.

800-120, 0 to 120 °C.

800-250, 0 to 250 °C.

P.O Box 25898 Sharjah
