

Elitech LMG-10W | Digital Manifold Gauge 2-Way Valve | AC Gauges App Control | With Thermometer Clamps For HVAC Systems

Traditional analog gauges can be easily replaced with the Elitech LMG-10W digital manifold gauge set. The LMG-10 digital manifold is built to survive the rigors of field use thanks to its heavy-duty housing, strengthened hook, water resistance, impact-resistant screen, strategically located thermocouple ports, and hermetically sealed sight glass.

Specifications	Details
Pressure Range	-14.5 to 800 psi
Measuring Units	Pressure: psi, kg/cm ² , kPa, MPa, bar Temperature: °F/°C
Temperature Range	-40~302°F/-40~302°C
Power Supply	3*AA batteries
Operating Temperature	14-122°F/-10~50°C
