

Elitech PMD 351 | Temtop Handheld Particle Counter Particulate Meter For PM1.0/PM2.5/PM4.0/PM10/TSP

The PMD 351 is a compact, lightweight, battery-operated aerosol (mass) monitor featuring five channels for simultaneous measurement of TSP (Total Suspended Particles) mass concentrations, PM1.0, PM2.5, PM4.0, and PM10. With its big display screen and seven functional buttons, the monitor is easy to use and effective for quick detection in a variety of situations. The monitor can operate continuously for eight hours thanks to an inbuilt high-performance lithium battery. In addition, the PMD 351 features two connection channels (USB and RS-232) and an integrated 8GB large-capacity storage. The discovered data can be transferred via the USB port for analysis or viewed directly on the screen.

Specifications	Details
Measuring range	0~1000 ug/m3
Accuracy	±10%
Resolution	0.1 ug/m3
Display	4.0" TFT LCD screen
Memory Capacity	2,000,000 reading
Operating Temperature	0~50 °C
Storage Temperature	-20~60 °C
Dimensions	170×110×48 mm
Weight	850g
